CRA Public File

This file contains information required to be made available for public inspection under the Community Reinvestment Act ("CRA"). Interested parties may review the information contained in our public file upon request.

The file includes information about Beacon Community Bank's Branch and ATM location(s), our products and services, regulatory performance evaluations of our record of meeting community credit needs, public comments about our CRA performance and other information.

To request a copy of our public file, make comments, or ask questions about Beacon Community Bank's CRA performance, contact us at the address below.

Beacon Community Bank CRA Officer
Beacon Community Bank
900 Bowman Rd, Suite 300
Mount Pleasant, SC 29464

(843) 990-5510

Under the Community Reinvestment Act the following information must be maintained in a public file and be current as of April 1 of each year.

- All written comments received from the public for the current year and each of the prior two calendar years that specifically relate to the bank's performance in helping to meet community credit needs, and any response to the comments by the bank, if neither the comments nor the responses contain statements that reflect adversely on the good name or reputation of any persons other than the bank or publication of which would violate specific provisions of law.
- A copy of the public section of the bank's most recent CRA Performance Evaluation prepared by the Federal Deposit Insurance Corporation
- A list of bank branches, their street addresses, and geographies as well as hours of operation.
- A list of branches opened or closed by the bank during the current year and each of the prior two calendar years, their street addresses, and geographies.
- A list of loan and deposit products, transaction fees generally offered at the bank's branches and descriptions of material differences in the availability or cost of services at branches, if any.
- A map of each assessment area showing the boundaries of the area and identifying the geographies contained within the area, either on the map or in a separate list.
- Any other information the bank chooses.

Updating: Except as otherwise provided in the regulation, a bank shall ensure that the information required by the Community Reinvestment Act is current as of April 1st of each year.

This document is an evaluation of this institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. This evaluation is not, nor should it be construed as, an assessment of the financial condition of this institution. The rating assigned to this institution does not represent an analysis, conclusion, or opinion of the federal financial supervisory agency concerning the safety and soundness of this financial institution.

INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated **Satisfactory**.

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area, including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities.

- The loan-to-deposit ratio is more than reasonable, given the institution's size, financial condition, and assessment area's credit needs.
- A majority of loans are in the bank's assessment area.
- The geographic distribution of loans reflects reasonable dispersion throughout the assessment area.
- The distribution of borrowers reflects, given the demographics of the assessment area, reasonable penetration among businesses of different sizes and individuals of different income levels (including low- and moderate-income).
- The bank has not received any Community Reinvestment Act (CRA)-related complaints since the previous evaluation. Therefore, this factor did not affect the Lending Test rating.

DESCRIPTION OF INSTITUTION

Beacon Community Bank is a state-chartered community bank headquartered in Charleston, Charleston County, South Carolina (SC). The bank has no holding company and does not operate a subsidiary or have an affiliate relationship. Beacon Community Bank received a Satisfactory rating at its previous FDIC CRA Performance Evaluation as of November 12, 2019, based on Interagency Small Institution Examination Procedures.

Beacon Community Bank operates four full-service offices in SC, including the main office located in Charleston. In addition to the main office, two branch offices (Houston Northcutt and Ben Sawyer) are located in Mount Pleasant, Charleston County, SC and one branch is located in Daniel Island, Berkeley County, SC. The Daniel Island and Ben Sawyer branches were opened in April 2021 and September 2022, respectively. The bank has not closed any offices nor has it participated in any merger or acquisition activity since the previous evaluation.

Beacon Community Bank's primary business focus is commercial and residential lending, which remains unchanged since the previous evaluation. Business purpose loans offered include construction and land development, commercial real estate, residential income property, and various secured and unsecured loans and lines of credit. Consumer loan products offered include one-to-four family residential, home equity, and other types of secured and unsecured consumer installment loans and lines of credit. Additionally, in July 2022, the bank began offering indirect auto lending through a network of four auto dealerships located throughout eastern South Carolina.

The bank offers a variety of business and consumer deposit products, including checking, savings, money market, and certificates of deposit accounts. Additional services include safe deposit boxes, domestic and international wire transfers, and direct deposit. Beacon Community Bank also offers alternative delivery systems to make financial services more accessible to its customers, including business and personal online banking with bill payment, mobile banking, mobile check deposit, telephone banking, and access to an automated teller machine.

As of the September 30, 2022 Consolidated Reports of Condition and Income (Call Report), the bank had total assets of \$469.2 million, total loans of \$407.0 million, and total deposits of \$395.8 million. The bank experienced significant growth in loans and deposits since the prior evaluation, when loans and deposits totaled \$85.7 million and \$75.4 million, respectively. The loan growth was primarily attributed to an increase in home refinance loans and lending via the SBA Paycheck Protection Program (PPP). The deposit growth was primarily attributed to an increase in non-time deposit accounts. As shown in the following table, loans secured by 1-4 family residential properties represent the largest portion of the loan portfolio at 45.7 percent, followed closely by commercial loans (loans secured by non-farm, non-residential properties and commercial and industrial loans) at 43.3 percent.

Loan Portfolio Distribution as of 09/30/2022		
Loan Category	\$(000s)	%
Construction, Land Development, and Other Land Loans	30,482	7.5
Secured by Farmland	0	0.0
Secured by 1-4 Family Residential Properties	186,035	45.7
Secured by Multifamily (5 or more) Residential Properties	11,812	2.9
Secured by Nonfarm Nonresidential Properties	152,528	37.4
Total Real Estate Loans	380,857	93.5
Commercial and Industrial Loans	23,842	5.9
Agriculture Production and Other Loans Farmers	0	0.0
Consumer Loans	2,747	0.7
Obligations of States and Political Subdivisions in the U.S.	0	0.0
Other Loans	0	0.0
Less: Unearned Income	425	0.1
Total Loans	407,021	100.0
<i>Source: Reports of Condition and Income</i>		

Examiners did not identify any financial or legal impediments, other than legal lending limits, that would affect the bank's ability to meet the credit needs of its assessment area.

DESCRIPTION OF ASSESSMENT AREA

The CRA requires each financial institution to define one or more assessment areas within which its CRA performance will be evaluated. Beacon Community Bank has designated one assessment area, which includes Charleston County in its entirety and a portion of Berkeley County. Both counties are part of the Charleston-North Charleston, SC Metropolitan Statistical Area (MSA). The bank added the portion of Berkeley County to its assessment area following the opening of the Daniel Island branch office in April 2021.

Economic and Demographic Data

The bank's assessment area is comprised of 87 census tracts, including 14 low-, 15 moderate-, 23 middle-, and 32 upper-income census tracts, as well as 3 census tracts without an income designation. The following table presents assessment area demographic information from the 2015 American Community Survey (ACS) census and 2021 Dunn & Bradstreet (D&B) data.

Demographic Information of the Assessment Area						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #
Geographies (Census Tracts)	87	16.1	17.2	26.4	36.8	3.4
Population by Geography	379,941	12.5	16.9	29.2	39.9	1.5
Housing Units by Geography	178,888	11.6	16.9	28.6	41.4	1.4
Owner-Occupied Units by Geography	91,617	6.3	14.5	30.8	48.0	0.5
Occupied Rental Units by Geography	59,240	20.0	20.8	29.2	27.8	2.3
Vacant Units by Geography	28,031	11.6	16.8	20.6	48.6	2.4
Businesses by Geography	41,483	11.2	15.9	24.7	46.0	2.2
Farms by Geography	918	5.6	15.0	38.5	40.2	0.8
Family Distribution by Income Level	89,117	22.4	15.0	17.6	45.1	0.0
Household Distribution by Income Level	150,857	25.7	14.8	16.3	43.2	0.0
Median Family Income MSA - 16700 Charleston-North Charleston, SC MSA		\$65,558	Median Housing Value			\$304,943
			Median Gross Rent			\$1,051
			Families Below Poverty Level			12.0%
<i>Source: 2015 ACS and 2021 D&B Data</i> <i>Due to rounding, totals may not equal 100.0%</i> <i>(*) The NA category consists of geographies that have not been assigned an income classification.</i>						

Based on 2021 D&B data, gross annual revenues (GARs) for businesses in the assessment area are:

- 84.7 percent have \$1 million or less;
- 4.7 percent have more than \$1 million; and,
- 10.6 percent have unknown revenues.

In 2021, the top industries in the assessment area were services, followed by non-classifiable establishments; retail trade; finance, insurance, and real estate; and construction. Top area employers include Joint Base Charleston, Medical University of South Carolina, Roper Saint Francis Healthcare, Charleston County School District, and the Boeing Company.

According to the Bureau of Labor Statistics, unemployment rates in the assessment area, State of South Carolina, and nation increased in 2020 due largely to the COVID-19 pandemic and declined in 2021, but remained above pre-pandemic levels. The unemployment rate in the assessment area was consistent with the state and below the national unemployment rates in 2019, 2020, and 2021. The following table reflects the unemployment rates for the assessment area, State of South Carolina, and nation during each year.

Unemployment Rates			
Area	2019	2020	2021
	%	%	%
Charleston County	2.3	6.2	3.6
Berkeley County	2.5	5.4	3.6
South Carolina	2.8	6.0	4.0
National Average	3.7	8.1	5.3

The following table presents the Federal Financial Institutions Examination Council’s (FFIEC) 2021 Median Family Income (MFI) figures for the Charleston-North Charleston, SC MSA. The MFI figures are used in the analysis of a bank’s record of home mortgage lending under the *Borrower Profile* criterion.

Median Family Income Ranges				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
Charleston-North Charleston, SC MSA Median Family Income (16700)				
2021 (\$82,100)	<\$41,050	\$41,050 to <\$65,680	\$65,680 to <\$98,520	≥\$98,520
<i>Source: FFIEC</i>				

Competition

There is a high level of competition in the financial services market within the bank’s assessment area. The FDIC’s June 30, 2022, Summary of Deposits revealed 33 FDIC-insured institutions operated 150 branches within the assessment area. Of these institutions, Beacon Community Bank ranked 11th, with a 1.9 percent market share. The top five financial institutions accounted for 66.2 percent of the deposit market share, and include Wells Fargo Bank, NA; Bank of America, NA; South State Bank, NA; Truist Bank; and First Citizens Bank & Trust Company.

Community Contact

As part of the CRA evaluation process, examiners typically contact third parties in a bank’s assessment area to gain additional insight regarding local economic conditions and to assist in identifying the credit and community development needs. This information helps determine whether local financial institutions are responsive to these needs and helps to identify what opportunities are available.

For this evaluation, examiners conducted a new community contact with an individual representing a small business development organization. The organization helps to promote trade, commerce, industry, and employment opportunities by providing private consulting services to local business owners in Charleston County. The contact stated that the local economy took a hit from the pandemic, but has since experienced consistent growth again. Small businesses suffered the most, but manufacturing businesses did very well. The contact also stated that despite the generally improved and strong economy, affordable housing is a continuing and growing need in Charleston,

SC. This is due in part to comparatively higher home values in the area, coupled with the limited stock of suitable affordable housing units. Finally, the contact stated that there is good competition among financial institutions in the area, which are generally responsive to community banking needs.

Credit Needs

Considering demographic and economic data, examiners determined that affordable housing represents a primary credit need. The significant percentage of low- and moderate-income families (37.4 percent) in the assessment area, coupled with the community contact's statement regarding limited availability of affordable housing, support this need. Additionally, small business loans represent a need for the assessment area. The significant percentage of businesses with gross annual revenues of \$1 million or less (84.7 percent) and the large number of businesses with four or fewer employees (63.7 percent) support this need, particularly considering the effect that the pandemic had on the assessment area's small businesses.

SCOPE OF EVALUATION

General Information

This evaluation covers the period from the prior evaluation dated November 12, 2019, to the current evaluation dated October 17, 2022. Examiners used the Interagency Small Institution Examination Procedures to evaluate the bank's CRA performance. These procedures include the CRA Small Bank Lending Test.

Activities Reviewed

Examiners determined the bank's major product lines are small business and home mortgage loans. This conclusion considered the bank's business strategy and distribution of the loan portfolio. No other loan types, such as small farm or consumer loans, represent a major product line; therefore, they provided no material support for conclusions or ratings, and are not presented. Small business loans received greater weight in determining the overall rating given the volume of loans originated during the evaluation period.

For the Lending Test, examiners reviewed the number and dollar volume of small business and home mortgage loans originated. While the number and dollar volume of loans are presented, examiners emphasized performance by number of loans, as the number of loans is a better indicator of the number of businesses and individuals served.

The CRA evaluation includes an analysis of small business loans, as defined in the Glossary. In 2021, the bank originated 352 small business loans totaling \$37.3 million. This universe included 275 loans originated through the Small Business Administration Payroll Protection Program (PPP) totaling \$12.7 million. Examiners reviewed the universe of small business loans to evaluate the bank's performance under the Assessment Area Concentration criterion. Examiners reviewed the universe of small business loans originated in the assessment area to evaluate the bank's performance under the Geographic Distribution criterion, which included 296 loans totaling

\$31.6 million. Examiners selected a random sample of small business loans originated in the assessment area to evaluate the bank's performance under the Borrower Profile criterion due to revenue information not being readily available. From the universe of small business loans originated inside the assessment area, examiners reviewed a sample of 55 loans totaling \$6.8 million, which included 40 PPP loans totaling \$2.5 million, to assess the bank's performance in meeting the small business credit needs of its assessment area. Examiners used 2021 D&B business demographic data for comparison purposes, including the percent of businesses by tract income level for the Geographic Distribution criterion, and the percent of businesses by gross annual revenue level for the Borrower Profile criterion.

The bank is not a Home Mortgage Disclosure Act reporter. However, examiners reviewed the universe of 133 home mortgage loans totaling \$77.7 million originated during 2021 to evaluate the bank's Assessment Area Concentration performance. Only home mortgage loans originated within the assessment area were used to evaluate the bank's Geographic Distribution performance, which included 111 loans totaling \$67.4 million. Since borrower income information was not readily available, a random sample of 47 home mortgage loans totaling \$28.6 million that were originated within the assessment area was selected to evaluate the bank's performance under the Borrower Profile criterion. Examiners used the 2015 ACS data for comparison purposes, including the percent of owner-occupied housing units by tract income level for the Geographic Distribution criterion, and the percent of families by income level for the Borrower Profile criterion.

According to management, the bank's 2021 small business and home mortgage lending activities and performance are representative of its activities and performance during the entire period since the previous evaluation.

CONCLUSIONS ON PERFORMANCE CRITERIA

LENDING TEST

Beacon Community Bank demonstrated satisfactory performance under the Lending Test. The Assessment Area Concentration, Loan-to-Deposit Ratio, Geographic Distribution, and Borrower Profile performance support this conclusion.

Loan-to-Deposit Ratio

Beacon Community Bank's net loan-to-deposit (NLTD) ratio is more than reasonable given the institution's size, financial condition, and assessment area credit needs. The bank's NLTD ratio averaged 106.3 percent over the previous 12 calendar quarters from December 31, 2019, to September 30, 2022. Over this time period, the bank's NLTD ratio ranged from a low of 93.2 percent as of December 31, 2021, to a high of 127.1 percent as of September 30, 2020.

Examiners identified two similarly situated institutions that are comparable in terms of asset size, branch structure, and market area served. The similarly situated institutions include The Bank of South Carolina and First Capital Bank, both located in Charleston, SC. The average NLTD ratio for the similarly situated institutions over the previous 12 calendar quarters is substantially below Beacon Community Bank's average NLTD ratio, as illustrated in the following table.

Loan-to-Deposit Ratio Comparison		
Name of Bank	Total Assets as of 09/30/2022 \$(000s)	Average NLTD Ratio (%)
Beacon Community Bank	\$469,154	106.3
The Bank of South Carolina	\$630,172	61.4
First Capital Bank	\$479,383	85.9
<i>Source: Call Report 09/30/2022</i>		

Assessment Area Concentration

A majority of loans were originated in the bank's assessment area. Refer to the following table for details.

Lending Inside and Outside of the Assessment Area										
Loan Category	Number of Loans				Total #	Dollar Amount of Loans \$(000s)				Total \$(000s)
	Inside		Outside			Inside		Outside		
	#	%	#	%		\$	%	\$	%	
Home Mortgage	111	83.5	22	16.5	133	67,446	86.8	10,302	13.2	77,748
Small Business	296	84.1	56	15.9	352	31,615	84.8	5,664	15.2	37,279
<i>Source: Bank Data Due to rounding, totals may not equal 100.0%</i>										

Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the assessment area. A reasonable performance for small business and home mortgage loans supports this conclusion.

Small Business Loans

The geographic distribution of small business loans reflects reasonable dispersion throughout the assessment area. The bank's performance in low-income census tracts was consistent with demographic data. Although the bank's performance in moderate-income census tracts was below demographic data by number of loans, performance was consistent with demographic data by dollar volume. Refer to the following table for details.

Geographic Distribution of Small Business Loans					
Tract Income Level	% of Businesses	#	%	\$(000s)	%
Low	11.2	33	11.2	4,768	15.1
Moderate	15.9	22	7.4	5,201	16.4
Middle	24.7	61	20.6	4,847	15.3
Upper	46.0	170	57.4	15,071	47.7
Not Available	2.2	10	3.4	1,728	5.5
Total	100.0	296	100.0	31,615	100.0
<i>Source: 2021 D&B Data; Bank Data</i>					
<i>Due to rounding, totals may not equal 100.0%</i>					

Home Mortgage Loans

The geographic distribution of home mortgage loans reflects reasonable dispersion throughout the assessment area. The bank’s performance in low-income census tracts was consistent with demographic data. However, home mortgage lending in moderate-income census tracts was below demographic data. Refer to the following table for details.

Geographic Distribution of Home Mortgage Loans					
Tract Income Level	% of Owner-Occupied Housing Units	#	%	\$(000s)	%
Low	6.2	8	7.2	8,484	12.6
Moderate	14.5	5	4.5	2,640	3.9
Middle	30.8	11	9.9	4,703	7.0
Upper	48.0	83	74.8	48,316	71.6
Not Available	0.5	4	3.6	3,303	4.9
Total	100.0	111	100.0	67,446	100.0
<i>Source: 2015 ACS Data; Bank Data</i>					
<i>Due to rounding, totals may not equal 100.0%</i>					

Borrower Profile

The distribution of borrowers reflects reasonable penetration among business of different sizes and borrowers of different income levels. Reasonable distribution of small business loans and poor distribution of home mortgage loans supports this conclusion.

Small Business Loans

The distribution of small business loans reflects reasonable penetration among businesses of different sizes. As reflected in the following table, the bank’s lending to businesses with GARs of \$1 million or less was 77.4 percent below demographic data. However, it is important to consider that revenues were not available for 47 or 85.4 percent of the sampled small business loans, including for 40 PPP loans. When considering only loans with available revenue information, lending to small businesses

was 50.0 percent, which is below demographic data. The following table reflects the distribution of small business loans among businesses of different sizes.

Distribution of Small Business Loans by Gross Annual Revenue Category					
Gross Revenue Level	% of Businesses	#	%	\$(000s)	%
<=\$1,000,000	84.7	4	7.3	610	9.0
>\$1,000,000	4.7	4	7.3	1,304	19.3
Revenue Not Available	10.6	47	85.4	4,854	71.7
Total	100.0	55	100.0	6,768	100.0
<i>Source: 2021 D&B Data, Bank Data. Due to rounding, totals may not equal 100.0%</i>					

Moreover, examiners also evaluated the universe of 55 small business loans originated inside the bank’s assessment area during 2021 using loan size as a proxy for the size of the business served. A majority of the small business loans originated in the assessment area, by number, had loan sizes of \$100,000 or less, and all small business loans had loan sizes of less than \$1 million, indicating that the bank is helping to serve the needs of small businesses in the assessment area. The following table reflects the distribution of small business loans by loan size.

Distribution of Small Business Loans by Loan Size				
Loan Size	Count	Percent	\$(000s)	Percent
<\$100,000	36	65.5	968	14.3
\$100,000 - \$249,999	6	10.9	867	12.8
\$250,000 - \$499,999	12	21.8	4,133	61.1
\$500,000 - \$1,000,000	1	1.8	800	11.8
Total	55	100.0	6,768	100.0
<i>Source: 2021 Bank Data</i>				

Home Mortgage Loans

Beacon Community Bank’s home mortgage lending reflects poor penetration among borrowers of different income levels. The bank did not originate any home mortgage loans to low-income borrowers. Home mortgage lending to moderate-income borrowers was also significantly below demographic data. However, as noted under Description of Assessment Area, demographic data indicates that opportunities for lending to low- and moderate-income individuals are limited and there is a high level of competition within the assessment area, both of which present challenges for the bank in meeting home mortgage loan needs. The following table reflects the distribution of home mortgage loans to borrowers of different incomes.

Distribution of Home Mortgage Loans by Borrower Income Level					
Borrower Income Level	% of Families	#	%	\$(000s)	%
Low	22.4	0	0.0	0	0.0
Moderate	15.0	2	4.3	160	0.6
Middle	17.6	5	10.6	1,965	6.9
Upper	45.0	37	78.7	22,935	80.3
Not Available	0.0	3	6.4	3,496	12.2
Total	100.0	47	100.0	28,556	100.0
<i>Source: 2015 ACS Data; Bank Data Due to rounding, totals may not equal 100.0%</i>					

Response to Complaints

The bank has not received any CRA-related complaints since the previous evaluation. Therefore, this criterion did not affect the Lending Test rating.

DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

The bank's compliance with the laws relating to discrimination and other illegal credit practices was reviewed, including the Fair Housing Act and Equal Credit Opportunity Act. Examiners did not identify any discriminatory or other illegal credit practices.

APPENDICES

SMALL BANK PERFORMANCE CRITERIA

Lending Test

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by considering the following criteria:

- 1) The bank's loan-to-deposit ratio, adjusted for seasonal variation, and, as appropriate, other lending-related activities, such as loan originations for sale to the secondary markets, community development loans, or qualified investments;
- 2) The percentage of loans, and as appropriate, other lending-related activities located in the bank's assessment area(s);
- 3) The geographic distribution of the bank's loans;
- 4) The bank's record of lending to and, as appropriate, engaging in other lending-related activities for borrowers of different income levels and businesses and farms of different sizes; and
- 5) The bank's record of taking action, if warranted, in response to written complaints about its performance in helping to meet credit needs in its assessment area(s).

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is often analyzed using only quantitative factors (e.g., geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary

counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as non-MSA): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in "loans to small farms" as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, “urban” consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

“Urban” excludes the rural portions of “extended cities”; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.
